

# SEAMEO INNOTECH YEAR IN REVIEW

## ANNUAL REPORT FY 2018/19

### SEAMEO INNOTECH

The Southeast Asian Ministers of Education Organization Regional Center for Educational Innovation and Technology envisions a better future for every learner in Southeast Asia.

It provides innovative and technology-oriented learning services and research-based solutions to enable the education community in Southeast Asia to effectively respond to current and emerging needs and concerns.

under 9001:2015 and 29990:2010

**1**  
regional forum on the future of learning

**3**  
video-based courses on Strategic Thinking and Innovation

## REINVENTING THE FUTURE OF LEARNING

The Center gathered high level education officials from the all the SEAMEO Member Countries to discuss the emerging trends in education, their impact on today's learners, and equipping the learners for the future.

The participants from the regional forum developed action plans for the coming years.

## DIGITAL CITIZENSHIP AND CYBERSAFETY

The Center produced e-Citizenship learning packets—a set of resources on cyber wellness and digital citizenship for Southeast Asian teachers.

A knowledge forum on cybersafety was also organized for policy makers and practitioners to discuss the importance of cybersafety to parents, teachers, and learners.

## MASSIVE OPEN ONLINE COURSES (MOOCs)

The Center offered Teach On: Keeping the Passion Alive as a MOOC to rekindle the teachers' passion for teaching. In partnership with GIZ, the Center also developed a MOOC for Wash in Schools, a project in support of the Philippine DepEd program.

## EXCELLENCE IN SCHOOL LEADERSHIP

The Center conducted a blended-learning program to strengthen learning, collaboration, and exchange of educational strategies, good practices and innovations among Southeast Asian school leaders and managers.

The Center also conducted the program in Lao PDR in partnership with the Institute for Education Administration Development.

## EARLY CHILDHOOD CARE AND EDUCATION

The Center published a research report on the inquiry-based teaching and learning approaches to develop critical and creative thinking in early childhood care and education. In another study, the Center also surveyed the status and needs of pre-primary education teachers in Southeast Asia.

## MINDANAO YOUTH FOR DEVELOPMENT (MYDEV)

The Center implemented components of the USAID-funded MYDev in support of peace-building in Mindanao in the Philippines through life skills training, civic engagement, local governance, and employability of vulnerable out-of-school youths. The project was done in partnership with the Education Development Center (EDC).

## ONLINE LEARNING COURSES FOR TEACHERS

The Center offered online learning courses for teachers such as GUR021, SUPEReXCELS, and TEACHEXCELS. The Center also recently developed video-based courses on Strategic Thinking and Innovation.

## UNDERSTANDING TEACHERS' MOTIVATION

Under its commitment to revitalize teacher education under the SEAMEO 7 Priority Areas, the Center is conducting a study on motivation among teachers in the Philippines which could inform policy reforms related to teacher welfare and professional development. The project is being conducted with the Philippine DepEd.

## SOUTHEAST ASIAN DIGITAL STEM PLATFORM

In partnership with Goethe Institut, the Center is developing an online portal that hosts resources in implementing integrated STEM teaching and learning activities. These resources are developed by teachers in Southeast Asia.
